

## **HARINGEY COUNCIL SPIN OUT OF CONTROL**

A Freedom of Information request submitted by Tottenham Conservatives has disclosed the massive and expensive extent to which Labour Haringey is relying upon communications experts to spin the bad news about our failing council.

The recently disclosed information reveals that Haringey's Communication and Consultation Unit costs over £1.1 million and employs 28 people.

Richard Merrin, Conservative Parliamentary Candidate for Hornsey and Wood Green commented, "This makes for depressing reading. The more useless and incompetent our council becomes the more money Labour spends on spinning that bad news to local residents. We all desperately want to see our council to improve, Labour can make a start by slashing their PR budget and transferring the savings to local services."

Figures from the TaxPayers' Alliance show that spending on publicity in Haringey has increased by over 300% in the last 10 years.
